Sarty Ndafyaalako

Software developer

I am a Computer Science student aspiring to specialise in software development. I enjoy creating technology that is both functional and engaging. I am particularly interested in developing user-focused software that turns everyday problems into enjoyable experiences.

Part of the 6 person team from Windhoek Technical High School to demonstrate our python skills and secured the gold spot of the high school division.

Projects

PORTFOLIO

Aug 2026 – Sep 2026

Designed and deployed a responsive personal portfolio using HTML, CSS, JavaScript, GitHub and hosted using Cloudflare.

TASK MANAGER

Sep 2026 – Oct 2026

Created web application to keep track of tasks, auto-delete tasks marked as completed after 24 hours.
Built using HTML, CSS, JavaScript, and Supabase for the database and user authentication.
Hosted using Cloudflare.

CODE DICTIONARY

Oct 2026 - Present

Created web-based code snippet dictionary and documentation repository to organize code solutions, tags, and technical references.
Built using HTML and CSS with a minimalist warm beige and burgundy design.
Hosted using Cloudflare.

Experience

FOUNDER AND SMALL BUSINESS OWNER – PRESS ON NAILS

June 2026 - Present

Communicated directly with customers and managed custom orders. Developed product pricing by calculating material costs, packaging expenses and profit margins. Managed inventory and purchasing of materials.
